WHAT is SNATIKA?

Many competent working professionals could not reach their true potential in their careers due to the lack of a respected Masters degree in their resume. The primary reason for the absence of a high-quality international qualification is the requirement to leave one's country of residence and take a sabbatical from a stable job for at least a year, which for most professionals is merely not possible. To us, that just seemed unfair. And it inspired us to create the platform we now know as SNATIKA.

SNATIKA offers a better stratagem where senior professionals can earn a Masters degree without the hassle of relocating or leaving their full-time job. SNATIKA believes that learners can receive a high quality education from anywhere in the world if they have access to the right resources.

That's why the SNATIKA platform was created; a place for working professionals to earn an International Masters degree, all while studying online and without taking a break from their job.

SNATIKA's mission is to provide a rich experience to our learners by having in place efficient systems and processes, that quality content and a state-of-the-art delivery platform. We also offer academically & globally recognized qualifications that will propel the career of their learners.

Today, SNATIKA offers one of the largest bouquets of International Masters programs in various fields of management to professionals striving to move ahead in their careers. The SNATIKA team understands the importance of globally recognized academic qualifications in boosting the careers of professionals, hence they have partnered with two international institutions.
