WHAT is SNATIKA?

Back in 2020, we saw many hard-working senior professionals stuck in the same position without any prospect for growth. The simple but overlooked reason for this glass ceiling was the lack of reputed academic qualifications on their CV. This lack haunted their career prospects during the pandemic and the subsequent economic disruption. It might be even more so in the future.

The situation was unfair because, due to their commitments and age, senior professionals were deprived of opportunities to pursue any reputed qualifications without hurting their career prospects, financial stability, or family commitments. The idea of enrolling for a Diploma/Certificate, moving away from their hometown, and quitting their jobs was impractical and scary.

Being in the education industry for years, we wanted to help them out of this rough spot. Above all, we wanted to create a online platform where they could pursue their Diplomas or Certificates without quitting their jobs, moving away from their families, or getting into debt without a source of income.

This is how SNATIKA was created in Mumbai, India. Our founders and the team had decades of experience in the education industry, which gave us a head start. We knew our adult learners needed nothing less than a reputed and globally recognised diploma to make it to the top. We partnered with reputed international education institutions to provide our learners with academic qualifications. SNATIKA has also been ISO certified for its Admission Process and Academic Delivery Process. We continue to provide one of the largest bouquet of programs exclusively for senior professionals across different domains.

Our mission is to serve senior working professionals with a fair opportunity to pursue career-enhancing professional programs on our state-of-the-art Learning Management System.

SNATIKA™
Boosting Careers of Professionals

Count on Our Qualifications

Learners are guided by SNATIKA at each level to choose the right program, and the final decision to provide admission rests with SNATIKA. SNATIKA's admission process ensures that only those learners who are apt for the program get admitted to our programs. Learners are provided with the right resource material, academic support, and timely assistance for them to successfully complete their program. We are able to provide this across genders, races, time zones, and geographies because of a strong academic delivery process, which is aptly supported by our PhD/ Doctorate facilitators. SNATIKA's academic delivery process ensures this is done flawlessly.

SNATIKA is certified for ISO 9001:2015 for "Admission Process & Academic Delivery Process."

Universidad Católica San Antonio de Murcia (UCAM) is a fully accredited European University founded in the year 1996. - ▶ Understand key legislation frameworks that influence risk management decision making in an organisation.
- ▶ Evaluate the scope and implications of risk management standards.

Unit 2: Strategic Risk Management

Unit Aims

The critical examination of strategic in relation to the setting and continuous improvement of performance standards; the establishment and maintenance of an effective system of risk management; all aspects of risk management are considered including, but not limited to, health and safety, environmental and security; planning and alignment of risk objectives with other corporate strategy.

Learning Outcomes

- ▶ Understand the concept of strategy risk and various types of strategy risk.
- ▶ Be able to review an organisation's strategy and risk plans.
- ▶ Understand the role of Corporate Social Responsibility and ethics in risk management systems.
- ▶ Understand the development, implementation and role of Business Continuity Planning with regard to corporate strategy.

Unit 3: Responsible Leadership and Governance

Unit Aims

In this unit, student will look at the modern organisational requirement of governance leading to the evaluation of good practice relating to company affairs. This unit provides the learner with an understanding of the effect of legislation and global integration on decisions, policies, processes and activities undertaken by organisations.

Learning Outcomes

- ▶ Understand the key socio- cultural, ethical and moral issues that affect organisations in the current economic environment.
- ▶ Understand the role of leadership to manage strategic and operational risk in the organisation.
- ▶ Understand the importance of corporate governance in organisations
- ▶ Understand the role and impact of corporate governance in the management of companies.

Unit 4: Organisational and Environmental Risk

Unit Aims

The aim of this unit is to help learners develop knowledge and understanding of the importance of managing risks in business organisations and enable them to develop an effective risk management plan and review risk financing options.

Learning Outcomes

- ▶ Understand the effects of risks on business organisations.
- ▶ Understand risk management function in organisations.
- ▶ Be able to prepare an effective risk management plan followed by an environmental screening.
- ▶ Understand risk control techniques.

Unit 5: Risk Analysis and Modelling

Unit Aims

This unit aims to provide learners' with an understanding of the core concepts and tools used to build modern risk analysis models. It introduces learners to the foundations of risk analysis. These core concepts are then combined to explore a number of modern risk analysis modelling techniques. This unit will provide learners' with the skills needed to apply these techniques in real life situations.

Learning Outcomes

- ▶ Understand the concept of operational risk and Basel II model.
- ▶ Understand how to apply risk models to an organisational context.
- ▶ Be able to apply financial models to an organisational context.

Unit 6: Business Research Methods

Unit Aims

The aim of this unit is to develop learners' ability to prepare for various types of academically based management research through the development and design of a research proposal. Learners will develop a critical understanding of the philosophical, practical and ethical concepts of research within the context of the business environment.

Learning Outcomes

- ▶ Be able to develop research approaches within a risk management context.
