WHAT is SNATIKA?

Back in 2020, we saw many hard-working senior professionals stuck in the same position without any prospect for growth. The simple but overlooked reason for this glass ceiling was the lack of reputed academic qualifications on their CV. This lack haunted their career prospects during the pandemic and the subsequent economic disruption. It might be even more so in the future.

The situation was unfair because, due to their commitments and age, senior professionals were deprived of opportunities to pursue any reputed qualifications without hurting their career prospects, financial stability, or family commitments. The idea of enrolling for a Diploma/Certificate, moving away from their hometown, and quitting their jobs was impractical and scary.

Being in the education industry for years, we wanted to help them out of this rough spot. Above all, we wanted to create a online platform where they could pursue their Diplomas or Certificates without quitting their jobs, moving away from their families, or getting into debt without a source of income.

This is how SNATIKA was created in Mumbai, India. Our founders and the team had decades of experience in the education industry, which gave us a head start. We knew our adult learners needed nothing less than a reputed and globally recognised diploma to make it to the top. We partnered with reputed international education institutions to provide our learners with academic qualifications. SNATIKA has also been ISO certified for its Admission Process and Academic Delivery Process. We continue to provide one of the largest bouquet of programs exclusively for senior professionals across different domains.

Our mission is to serve senior working professionals with a fair opportunity to pursue career-enhancing professional programs on our state-of-the-art Learning Management System.

Program Overview

Unit Specifications

Unit 1: Creating Strategic Leaders and Managers in Policing

Unit Aims

The primary aim of this unit is to develop a learner's understanding of strategic leadership and management in the context of policing. This will be achieved through an exploration of leadership and management theories, concepts, and models where the contextualising of new knowledge is located in the learner's organization and its environment. Learners will explore ways in which strategic leaders and managers can improve the performance of teams and individuals within their area of responsibility whilst also focusing on their performance as strategic leaders and managers.

Learning Outcomes

- ▶ Understand leadership and management theories, concepts, and models.
- ▶ Understand the key internal and external factors which influence strategic leadership and management.
- ▶ Understand the role of leadership and management to improve organizational performance.
- ▶ Be able to engage in continuing professional development to improve own ability as a strategic leader and manager.

Unit 2: Public Sector Reform

Unit Aims

The primary aim of this unit is to develop a learner's understanding of public sector reform in their home nation and the impact reform has on its public sector organizations. This will be achieved through an exploration of factors, both national and international, that influence and drive public sector reform. Learners will explore ways in which nations and public sector organizations respond to these influences where the impact of changes within the public sector on stakeholders is a key consideration.

Learning Outcomes

- ▶ Understand national and international factors which influence public sector reform.
- ▶ Understand how a nation's public sector responds to national and international influences.
- ▶ Understand how a public sector organization responds to national and international influences.
- ▶ Understand the impact of a public sector organization's response to national and international influences.

Unit 3: Digital Transformation in Policing and CyberCrime

Unit Aims

The primary aim of this unit is to strategically develop a learner's understanding of digital policing, digital transformation, and cybercrime within a fast-changing and challenging context. This will be achieved through an exploration of digital policing, digital transformation, and disruption concepts alongside developing an appreciation of the elements of cybercrime which are occupying a high level of importance in policing within a digital age. Additionally, learners will be introduced to key terminology associated with digital technology and gain an insight into how technology can be used in everyday policing and criminal investigations.

Learning Outcomes

- ▶ Understand how technology is used in policing.
- ▶ Understand the drivers and influences of digital transformation in policing.
- ▶ Understand the different types of cybercrime and the prevalence of digitally-facilitated crimes.

Unit 4: Strategic Project Management

Unit Aims

The primary aim of this unit is to develop a learner's understanding of project management in a strategic context. This will be achieved through an exploration of project management principles and concepts alongside developing an appreciation of the key roles and responsibilities which exist within a strategic project. Additionally, learners will explore ways in which projects are designed, planned, and monitored so that they are in a strong position to strategically support an organization that uses project management as an approach to achieving its strategic objectives.

Learning Outcomes

- ▶ Understand project management concepts and principles.
- ▶ Understand key roles and responsibilities within a project.
- ▶ Understand how to deliver projects through effective planning and control.
- ▶ Be able to design an integrated project plan.

Unit 5: Strategic Consultancy Research Project

Unit Aims

The primary aim of this unit is to support a learner's ability to conduct an investigation, underpinned by research, into an organization's strategic challenges. The unit requires learners to apply their understanding to an organizational challenge where there are strategic consequences and effects. Learners will research a strategic challenge that an organization faces based on an understanding of what is required to conduct effective consultancy-based research. This will enable a learner to be in a position to produce a proposal, based on their findings, which, if taken forward, has the potential to address a strategic challenge.

Learning Outcomes

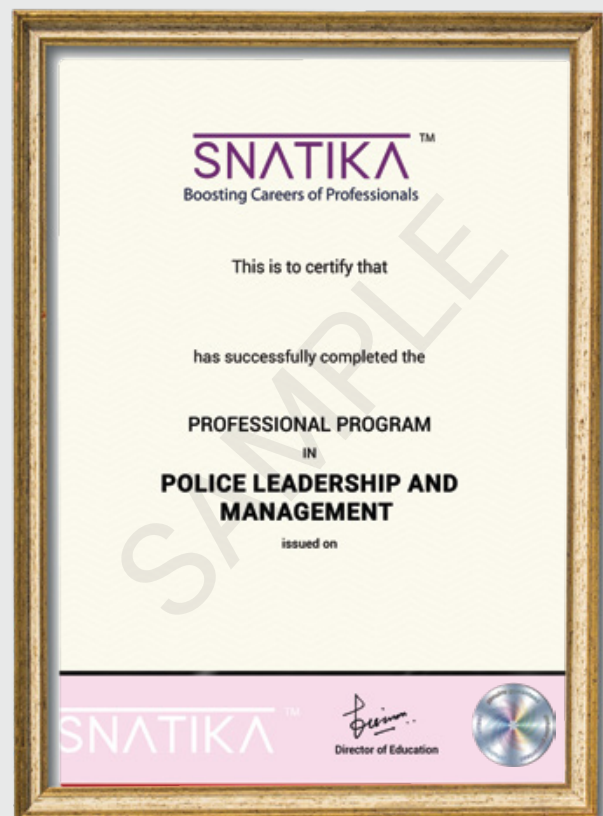

- ▶ Understand key principles and concepts of a strategic research project.
- ▶ Understand an organization's strategic challenges.
- ▶ Be able to design a strategic research project.
